To get David Lay's data files, use your browser to go to www.pearsonhighered.com/lay.

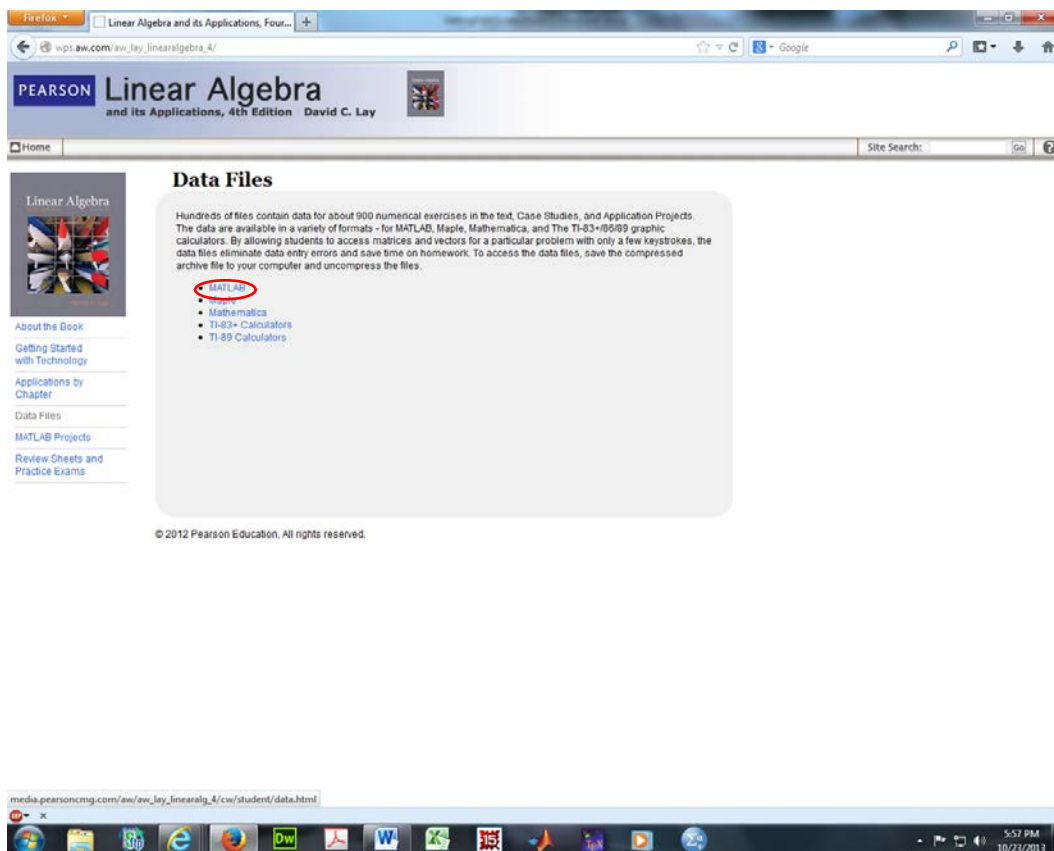

Click on "Student resources."

Click on "Data Files."

Click on "MATLAB."

Click "OK" to download the compressed folder mathlab_datasets.zip.

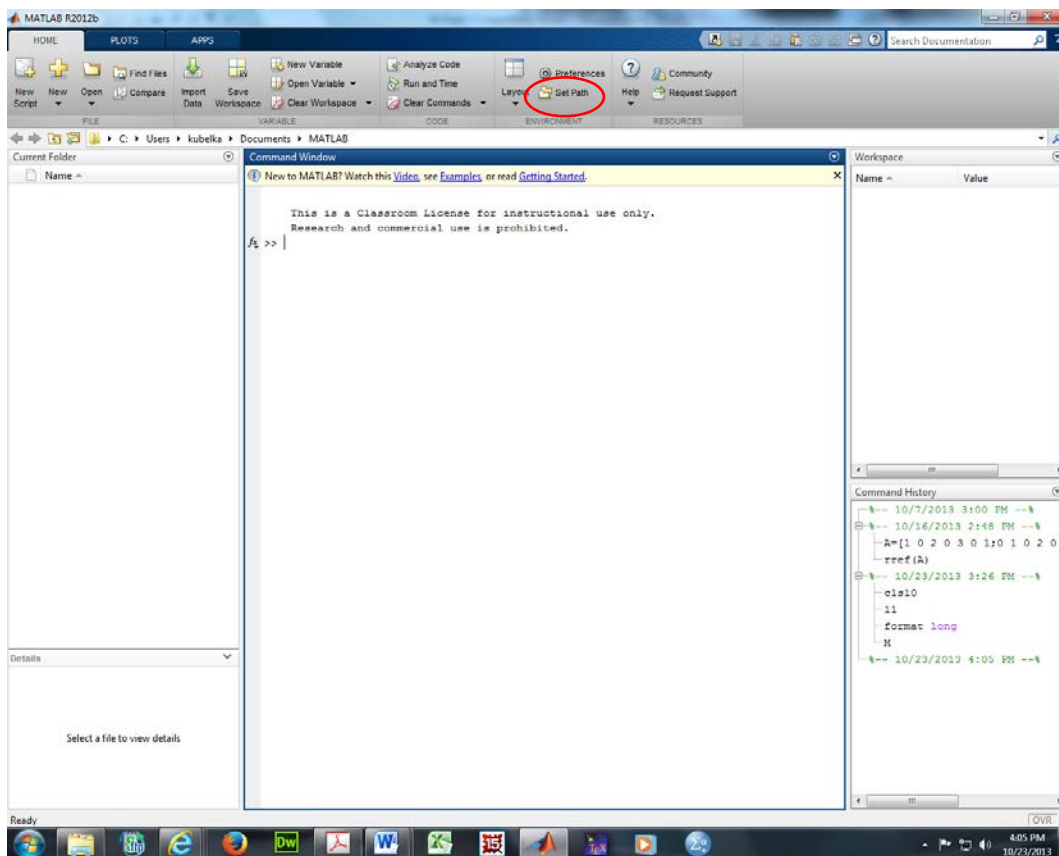

The compressed folder will go wherever your downloads are sent. Right click on the icon, then "Extract all."
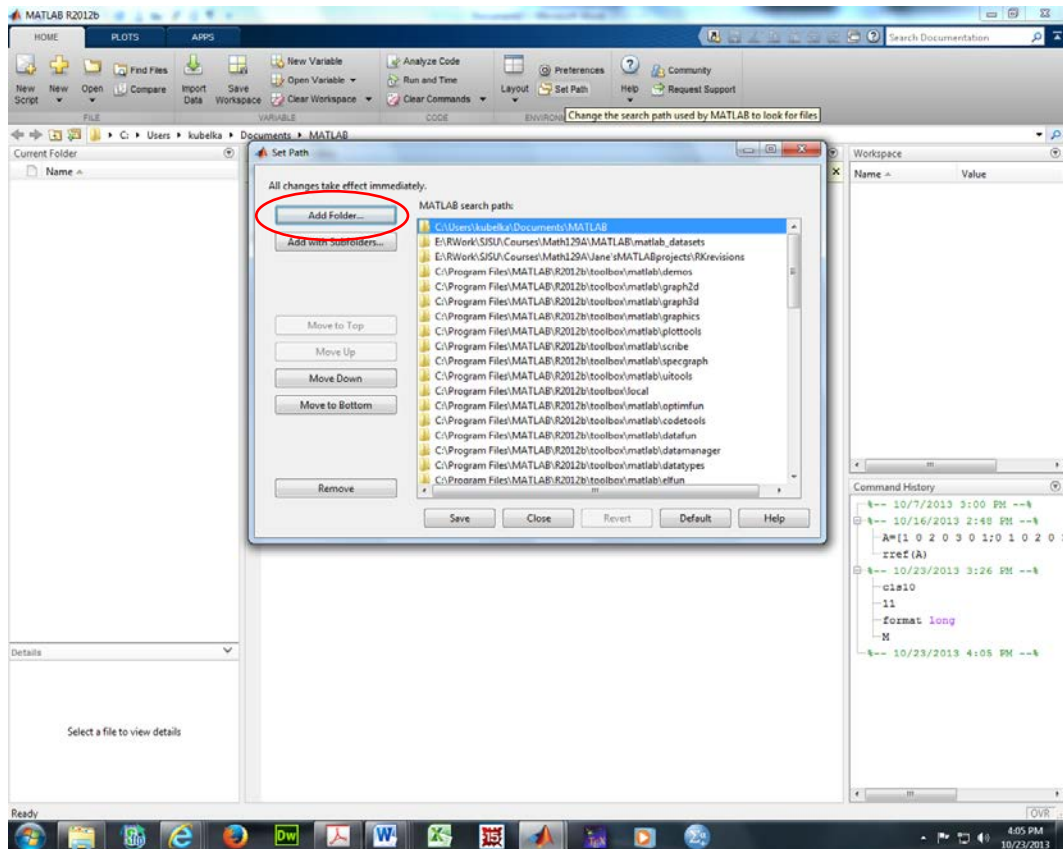

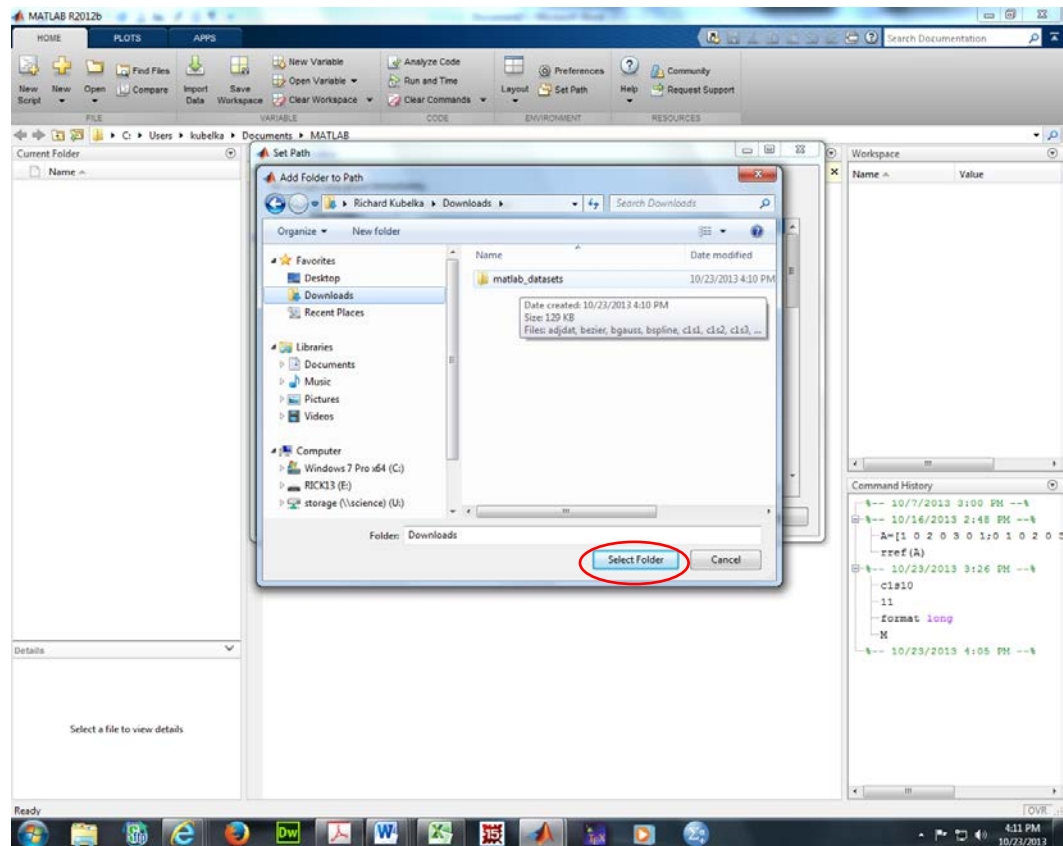

Click on "Extract."

Now launch MATLAB and click on "Set Path."

Click on "Add Folder."

Navigate to the location of matlab_datasets on your hard drive. Click on "Select Folder."

Click on "Close."

Click on "Yes."
